**RE: STORMWATER PIPE CLEANING CONTRACT**

Dear Shane,

Mackay Regional Council recently called for tenders for the cleaning of our underground storm water pipes in various locations in and around the city and suburbs of Mackay and Sarina. Awarding the contract to Supervax Pty Ltd represents the most advantageous outcome and demonstrated value for money to Mackay Regional Council based on their experience and understanding of council requirements.

The pipe diameters varied from 300mm, through to 1800mm, with a total of 2593 metres in length. These were blocked with heavy debris, gravel, sand, large rocks and mass root structures into our storm water systems.

Supervax did a brilliant job, I have to say, that they are a friendly and professional business who industrially get on with a far from glamorous, but very important task, one of those jobs no one cares about, until the pipeline system goes wrong. Please pass on my thanks to Shane and Job, for a job well done.

I would have no hesitation in hiring Supervax again.

Yours sincerely,

**John Cross**

**Technical Officer**

**Mackay Regional Council**
